ROSÁRIOS 4

creating yarns since 1979

Based in Mira de Aire, central Portugal, Rosários 4 specialized in the **production** and **dyeing** of **textile yarns** (knitting, crochet and embroidery). The development of innovative and value-added products and the priority to natural fibres, alongside an unquestionable quality customer service, are a few of the principles that motivate Rosários 4, driving the company onto an incessant path of improvement. As a result, Rosários 4 has been certified since 2000 by the **ISO 9001 Quality Standard**.

The quality assurance also extends to the products, producing 100% wool yarn with the **Pure New Wool** quality seal; and **organic** wool and **organic** cotton yarns **GOTS** certified. Among the many articles that hold the Pure New Wool guarantee, is the Arraiolos (tapestry) wool, one of the most emblematic references of Rosários 4.
