Colour 541

ARRAIOLOS

(100% Wool)

Arraiolos wool is traditionally used to embroider tapestries. However, this resistant and versatile wool, can be used in many other projects and worked with different techniques, such as crochet.

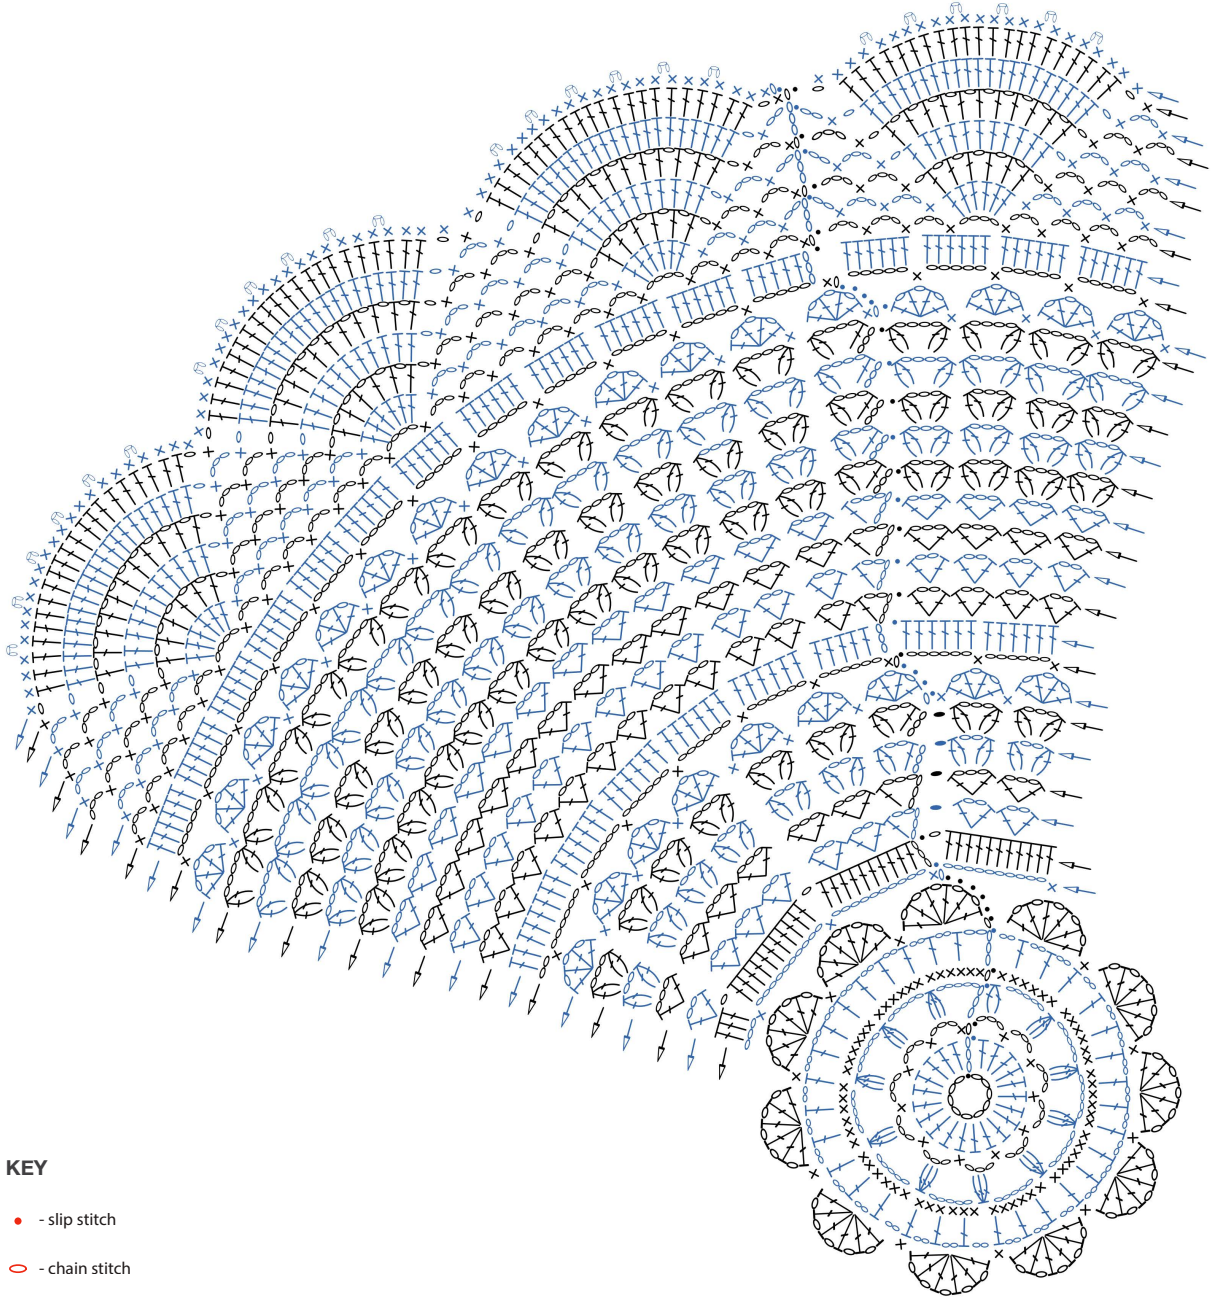

Esteva is the result of this versatility and creative design, with the added advantage of it being a very practical piece: it is light and 100% wool, making it very easy to clean and care for.
